

Suricatele

Suricata (denumirea stiintifica *Suricata suricatta*) este un mamifer mic si un membru al familiei mangustelor. Ea traieste peste tot in Desertul Kalahari, in Botswana si in Africa de Sud. Un grup de suricate este numit 'gloata', 'ceata' sau 'colonie'. O colonie de suricate de obicei contine in jur de 30 de suricate, dar unele familii mai mari au avut 50 sau mai multi membrii. Suricatele au media de viata in jur de 12-14 ani.
